

BEECH CREEK BRANCH LINE

Comment Form for Public Scoping Meeting
February 10, 2009

Thank you for joining us tonight to learn about environmental studies for the proposed reactivation of the Beech Creek Branch Line. An important component of the environmental clearance process is to gather and consider comments from the interested public. Please complete the information below and deposit this form in one of the collection boxes marked "Comment Forms".

1. In which municipality and county is your residence located?

Snow Shoe Township - Centre Co.

2. How did you learn about the meeting tonight?

EMAIL - CHURCH BULLETIN

3. Please tell us your comments about the information presented here tonight. (How well was the information presented; was it informative and understandable; were the consultants helpful in answering your questions; etc.)

I am very much against this proposal. In the building or rebuilding of the rail line, the impact on our highways with the burden of mass trucks + equipment would be a safety hazard for children waiting for buses, and terrible inconvenience for homeowners along the route. It will also present an unhealthy atmosphere for anyone with a compromised immune system or breathing problems.

4. What additional comments about the proposed rail reactivation would you like to add?

this will be a terrible impact on wildlife and the serenity of our wilderness areas. Many of us have chosen to live in this area for the beauty and quiet.

WE DON'T WANT IT !!!
